

ULTRASUN

Premium

5G SOLAR WATER HEATER

EVACUATED TUBE TECHNOLOGY

SWH System Designed as 25 Years Avg*

"30 Years of Proven Expertize in Solar Thermal Industry"

Features

- Quality Rating: ★ ★ ★ ★ ★
- Manufactured by using latest CNC Technology machines
- High quality laser welding technology
- 3 target evacuated copper oxide tubes
- Extra flush point in tank for cleaning
- High pressure control tank (optional)
- Reliable, Efficient and Trustworthy
- Easy installation- Low maintenance
- International quality standard
- After-sales service guaranteed

Specifications

- Model: US-5G-15-Premium
- LPD: $180 \pm 10\%$
- No. of Tubes: 15XL
- Tube size: 58X1800X1.8mm(XL)
- Absorber: 3 Layers-AL+SS+CU
- Absorbance: 96%
- Transmittance: 97%
- Collector Area: 2.16m² approx.
- Inner Tank: X-TRA Thick-SUS-304
- Outer Tank: SUS-304, Ø470mm
- Stand/Parts: X-TRA Strength, SUS-202, 30°
- Tank Protection: Magnesium Kit
- E-Heating: 1500 Watt
- PUF Insulation: 50mm-45kg/m³

*Conditions Apply

Open to partnerships with new Dealers/Distributors for some District/Province of Nepal.
